The levels are set by a computer program, so they are always objective and the same. No repeating puzzles. The puzzles you see in this book are not published in any other non Polish language book. They were only published in our Polish monthly magazines available in Polish press stores or in online store at our website. We publish puzzles since 2004 - we know well what puzzlers like. If you have problems with solving a puzzle send it to us and we will show you a next step. Although puzzlers prefer to solve puzzle alone to feel proud, sometimes a small tip can be very helpful. We provide such help all the time for Polish puzzlers. If you are new in puzzles you can check our website for tutorials [www.logi-puzzles.com](http://www.logi-puzzles.com). Go to the Friday Online Mix section and click below a specific puzzle to see tips and tricks. The person who takes care of Logi's high quality is Urszula Marciniak - the founder of Logi. **Nonograms for Beginners** 2018-08-27 Mindful Puzzle Books Nonogram (also known as "Paint By Numbers," "Griddler," "CrossPix," "Hanjie") is a type of puzzles where it is necessary to draw the picture in accordance with the numbers to the left of the rows and on top of the columns. The picture is made up of filled squares and blank (white) squares. The numbers indicate how many groups of filled or colored squares are contained in each row or column, and how many uninterrupted colored squares each group contains. The nonogram puzzle was invented by Non Ishida in 1987, in Japan, therefore in some countries (for example, in Russia) it is called "Japanese Crossword."
