Procuring Interoperability 2018 Peter J. Pronovost Realizing the promise of technology depends on sharing information across time and space. The barrier to progress is not technical; it is the failure of organizational demand to drive purchasing requirements. Better procurement practices, supported by interoperable platforms, will allow for better, safer patient care and financial savings.

Working Together 2014 Pat Dudgeon This resource is written for health professionals working with Aboriginal and Torres Strait Islander people experiencing social and emotional wellbeing issues and mental health conditions. It provides information on the issues influencing mental health, good mental health practice, and strategies for working with specific groups. Over half of the authors in this second edition are Indigenous people themselves, reflecting the growing number of Aboriginal and Torres Strait Islander experts who are writing and adding to the body of knowledge around mental health and associated areas.

Fundamentals of Franchising 2016-12-01 Joseph J. Fittante (Jr.) Written specifically to help lawyers and non-lawyers brush up on franchise law, this respected publication - now in its fourth edition - is charged with useful definitions, practical tips, and expert advice from experienced franchise law practitioners. This practical guide examines franchise law from a wide-range of experiences and viewpoints. Each chapter is written by two experienced practitioners to provide a well-rounded guide to the fundamentals of franchise law and key issues in the practice, including trademark law; structuring the franchise relationship; disclosure issues; registration; franchise relationship laws; antitrust law; counseling franchisees; and more.

The Work of Art 2017 Alison Gerber Artists are everywhere, from celebrities showing at MoMA to locals hoping for a spot on a café wall. They are photographed at gallery openings in New York and Los Angeles, hustle in fast-gentrifying cities, and, sometimes, make quiet lives in Midwestern monasteries. Some command armies of fabricators while others patiently teach schoolchildren how to finger-knit. All of these artists might well be shown in the same exhibition, the quality of work far more important than education or income in determining whether one counts as a "real" artist. In *The Work of Art*, Alison Gerber explores these art worlds to investigate who artists are (and who they're not), why they do the things they do, and whether a sense of vocational calling and the need to make a living are as incompatible as we've been led to believe. Listening to the stories of artists from across the United States, Gerber finds patterns of agreements and disagreements shared by art-makers from all walks of life. For professionals and hobbyists alike, the alliance of love and money has become central to contemporary art-making, and danger awaits those who fail to strike a balance between the two. The stories artists tell are just as much a part of artistic practice as putting brush to canvas or chisel to marble. By explaining the shared ways that artists account for their activities--the analogies they draw, the arguments they make--Gerber reveals the common bases of value artists point to when they say: what I do is worth doing. *The Work of Art* asks how we make sense of the things we do and shows why all this talk about value matters so much.

NAFSA's Guide to Education Abroad for Advisers and Administrators 1993 NAFSA: Association of International Educators (Washington, D.C.) This volume offers a series of papers and essays as a guide to higher education advisors and administrators in the field of education abroad. Papers are organized into three sections which address education abroad in general, advising, and program development and evaluation. The following papers are included: "Being a Professional in the Field of Education Abroad" (Archer Brown and David Larsen); "The Education-Abroad Office in Its Campus Context" (Paul DeYoung and Paul Primak); "Academic Credit" (Eleanor Krawutschke and Kathleen Sideli); "Financial Aid" (Nancy Stubbs); "The Office Library and Resource Materials" (Catherine Gamon and Heidi Soneson); "Computerizing Operations" (James Gehlhar and Kathleen Sideli); "Promotion and Publicity" (My Yarabinec); "The Demographics of Education Abroad" (Stephen Cooper and Mary Anne Grant); "Advising Principles and Strategies" (Cynthia Felbeck Chalou and Janeen Felsing); "Promoting Student Diversity" (Margery A. Ganz et al.); "Health and Safety Issues" (Joan Elias Gore); "Predeparture Orientation and Reentry Programming" (Ellen Summerfield); "Program Planning, Budgeting, and Implementation" (Jack Henderson et al.); "Program Designs and Strategies" (Joseph Navari and Heidi Soneson); "Work Abroad and International Careers" (William Nolting); and "Program Evaluation" (Michael Laubscher and Ronald Pirog). Appendixes contain a bibliography of about 180 print and non-print items as well as about 90 organizations, a 1990 report of a national task force on undergraduate education abroad, a Pennsylvania State University program evaluation guide, the Association of International Educators' code of ethics, and a paper on reading study abroad literature.

Federal acquisition regulation supplement (NASA/FAR supplement). 1984 United States. National Aeronautics and Space Administration

Lucky War 1997 Richard Moody Swain Provides an account, from the point of view of the U.S. Army forces employed, of the 1990-91 Persian Gulf War, from the Iraqi invasion of Kuwait to the withdrawal of coalition forces from southeastern Iraq. It focuses on the Army's part in this war, particularly the activities of the Headquarters, Third Army, and the Army Forces Central Command (ARCENT). It looks especially at the activities of the VII Corps, which executed ARCENT's main effort in the theater ground force schwerpunkt -- General Schwarzkopf's "Great Wheel." This is not an official history; the author speaks in his own voice and makes his own judgments. Maps.

Handbook of Race, Racism, and the Developing Child 2008-07-10 Stephen M. Quintana Filling a critical void in the literature, *Race, Racism, and the Developing Child* provides an important source of information for researchers, psychologists, and students on the recent advances in the unique developmental and social features of race and racism in children's lives. Thorough and accessible, this timely reference draws on an international collection of experts and scholars representing the breadth of perspectives, theoretical traditions, and empirical approaches in this field.

Indianapolis Monthly 2001-12 Indianapolis Monthly is the Circle City's essential chronicle and guide, an indispensable authority on what's new and what's news. Through coverage of politics, crime, dining, style, business, sports, and arts and entertainment, each issue offers compelling narrative stories and lively, urbane coverage of Indy's cultural landscape.

Administrative Careers with America (ACWA) 2002-11-15 Arco The Administrative Careers With America (ACWA) exam is the test required for thousands of entry-level administrative, professional, and technical positions with the federal government. This guide offers the only preparation available, providing everything test-takers need to launch rewarding government careers.

Linebacker II 1979 James R. McCarthy

Cambridge IGCSE® English as a Second Language Coursebook 2017-02-02 Peter Lucantoni Supports students studying for Cambridge IGCSE® English as a Second Language (ESL). This fully updated print Coursebook is designed to support students studying for Cambridge International Examinations IGCSE® English as a Second Language syllabus (0510/0511/0991) for examination in 2019. With carefully scaffolded content, this easy to navigate coursebook has a language focus in each unit and offers new word and top tips. Each unit is themed and takes an integrated skills approach while emphasising a core skill. At the end of each chapter students can reflect and develop on what they have learnt, all to help build students' language skills and confidence in English as the course progresses.

Divining Victory: Airpower in the 2006 Israel-Hezbollah War 2011-09-16 William M. Arkin This is the story of an airpower-dominated campaign, one that was deeply flawed in its design yet impressive in its efficiency. This quick-look study is based upon visits to damaged sites, villages, towns, and cities; discussions with government and military officials; and experience of having evaluated airpower and its effects in Afghanistan, Iraq, and the former Yugoslavia (and previously in Lebanon). Months of follow-up research included exchanges with Israeli, Lebanese, Hezbollah, and US experts. The intent was to develop a timely airpower narrative to enhance professional military education and planning. About the author: William M. Arkin is an independent military analyst, journalist, and author. He writes the 'Early Warning' column for washingtonpost.com (where he previously wrote the 'DOT.MIL' column from 1998 to 2003) and is a longtime NBC News military analyst. (Originally published by Air University Press)

The First R 2001-12-11 Joe R. Feagin This study looks into how children learn about the 'first R'—race—and challenges the current assumptions with case-study examples from three child-care centers. Parents and teachers will find this remarkable study reveals that the answer to how children learn about race might be more startling than could be imagined.

Managing Information Technology 2012 Carol Vanderbilt Brown A thorough and practical guide to IT management practices and issues. Through an approach that offers up-to-date chapter content and full-length case studies, Managing Information Technology presents in-depth coverage on IS management practices and technology trends. The sixth edition has been thoroughly updated and streamlined to reflect current IS practices.

Unhinged 2010-05-18 Daniel Carlat IN THIS STIRRING AND BEAUTIFULLY WRITTEN WAKE-UP CALL, psychiatrist Daniel Carlat exposes deeply disturbing problems plaguing his profession, revealing the ways it has abandoned its essential purpose: to understand the mind, so that psychiatrists can heal mental illness and not just treat symptoms. As he did in his hard-hitting and widely read New York Times Magazine article "Dr. Drug Rep," and as he continues to do in his popular watchdog newsletter, The Carlat Psychiatry Report, he writes with bracing honesty about how psychiatry has so largely forsaken the practice of talk therapy for the seductive—and more lucrative—practice of simply prescribing drugs, with a host of deeply troubling consequences. Psychiatrists have settled for treating symptoms rather than causes, embracing the apparent medical rigor of DSM diagnoses and prescription in place of learning the more challenging craft of therapeutic counseling, gaining only limited understanding of their patients' lives. Talk therapy takes time, whereas the fifteen-minute "med check" allows for more patients and more insurance company reimbursement. Yet DSM diagnoses, he shows, are premised on a good deal less science than we would think. Writing from an insider's perspective, with refreshing forthrightness about his own daily struggles as a practitioner, Dr. Carlat shares a wealth of stories from his own practice and those of others that demonstrate the glaring shortcomings of the standard fifteen-minute patient visit. He also reveals the dangers of rampant diagnoses of bipolar disorder, ADHD, and other "popular" psychiatric disorders, and exposes the risks of the cocktails of medications so many patients are put on. Especially disturbing are the terrible consequences of overprescription of drugs to children of ever younger ages. Taking us on a tour of the world of pharmaceutical marketing, he also reveals the inner workings of collusion between psychiatrists and drug companies. Concluding with a road map for exactly how the profession should be reformed, *Unhinged* is vital reading for all those in treatment or considering it, as well as a stirring call to action for the large community of psychiatrists themselves. As physicians and drug companies continue to work together in disquieting and harmful ways, and as diagnoses—and misdiagnoses—of mental disorders skyrocket, it's essential that Dr. Carlat's bold call for reform is heeded.

Transforming Trauma 2019 Philip Tedeschi Have you ever looked deep into the eyes of an animal and felt entirely known? Often, the connections we share with non-human animals represent our safest and most reliable relationships, offering unique and profound opportunities for healing in periods of hardship. This book focuses on research developments, models, and practical applications of human-animal connection and animal-assisted intervention for diverse populations who have experienced trauma. Physiological and psychological trauma are explored across three broad and interconnected domains: 1) child maltreatment and family violence; 2) acute and post-traumatic stress, including military service, war, and developmental trauma; and 3) times of crisis, such as the ever-increasing occurrence of natural disasters, community violence, terrorism, and anticipated or actual grief and loss. Contributing authors, who include international experts in the fields of trauma and human-animal connection, examine how our relationships with animals can help build resiliency and foster healing to transform trauma. A myriad of animal species and roles, including companion, therapy, and service animals are discussed. Authors also consider how animals are included in a variety of formal and informal models of trauma recovery across the human lifespan, with special attention paid to canine- and equine-assisted interventions and psychotherapy. In addition, authors emphasize the potential impacts to animals who provide trauma-informed services, and discuss how we can respect their participation and implement best practices and ethical standards to ensure their well-being. The reader is offered a comprehensive understanding of the history of research in this field, as well as the latest advancements and areas in need of further or refined investigation. Likewise, authors explore, in depth, emerging practices and methodologies for helping people and communities thrive in the face of traumatic events and their long-term impacts. As animals are important in cultures all over the world, cross-cultural and often overlooked animal-assisted and animal welfare applications are also highlighted throughout the text.

Proving Damages to the Jury 2018-08-17 Jim Wren With this new edition of Proving Damages to the Jury, we are pleased to welcome a co-author: Laura Brown, a partner in Williams & Brown. Together, author Jim Wren and Ms. Brown and have updated the book with new and expanded coverage of a broad range of substantive topics and practical advice, including: Client Interview and Investigation Topics to review with your client at your initial meeting, in personal injury and wrongful death cases. In a wrongful death case, how and when to approach family or close friends with a request for photos/videos of the deceased. Valuations and Damage Models Updated tables for all five steps for computing lost earnings and earning capacity in a personal injury or wrongful death case. Damage Experts and Daubert/Frye Issues Discoverability of experts' "draft reports," notes, outlines, memoranda and emails. The analysis applicable to opinions based on technical and other specialized knowledge may differ even among jurisdictions that adhere to Daubert, depending on whether the jurisdiction also has adopted Kumho. Working With Damage Experts How and why to research an expert's testifying history. Tips for how best to provide records to your life care planner expert. Challenges of qualifying an expert to express an opinion on life-expectancy. Developing Your Visual Strategy Putting the visual story together, so that each phase of your damages story is represented. When and how to make the most effective use of PowerPoint presentations. Practical tips for using foam boards, notepad flip charts, and animations or interactive visuals. How spending time with your client's family members, friends and caregivers can help you develop the anecdotal story of your case and the visuals to support that story. The importance of choosing the right color scheme for your visuals. Confronting Difficult Fact Issues, including: Pre-existing conditions. Loss of consortium. Vicarious liability. Scientific Proof of Brain Injury Use of Double-Pulsed-Field Gradient MRI (dPFG MRI). Recent cases upholding the admissibility of Diffusion Tensor Imaging (DTI) findings and testimony as reliable. And More!

Guinness World Records: Science and Stuff 2018-01-11 Guinness World Records Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, Science and Stuff celebrates the simple joy in finding things out. What can cats teach us about the laws of physics? Why was cabbage banned on the International Space Station? (Can you fart in space?) And would a penny dropped from the Empire State Building really kill someone? (Short answer: No!) But it's not all facts and stats. The feature chapter just for Makers, introduced by our very own mad professor Burnaby Q. Orbax, challenges you to attempt record-breaking science experiments at home, from the fastest Mentos & Soda rocket car to the most slime thrown and caught in a minute! Join us as we rise from the deepest depths of the ocean, where weird glowing fish hunt in the darkness, to the mountaintop observatories where scientists unravel the secrets of the universe.

Cambridge IGCSE(tm) English As a Second Language Student's Book (Collins Cambridge IGCSE(tm)) 2017 Alison Burch Collins Cambridge IGCSE(R) English as a Second Language Second Edition has been fully updated to match the new Cambridge IGCSE(R) English as a Second Language syllabus 0510/0511 (for first examination 2019) - Written by expert English as a Second Language authors and edited by a senior examiner.- provides in-depth coverage of every aspect of the latest Cambridge IGCSE(R) English as a Second Language 0510/0511 syllabus for examination from 2019 onwards.- Student Book combines a course book full of authentic and engaging topics and texts and exam preparation and skills practice all in one- Support for Core and Extended candidates with Going Further features throughout the Student Book, practice exam-style

questions and sample student answers at both Core and Extended in the Student Book, and ideas for differentiation in the Teacher Guide- Engage students with a rich variety of authentic texts and audio (CD-ROM accompanies the Student Book and Teacher Guide) with a global, multicultural focus- Further practice for exam and exam-related skills in the write-in Student Workbook- Additional listening, reading, grammar and vocabulary practice via Collins Connect online platform to further embed the key language from the course. Exercises are auto-marked and are linked to a diagnostic tool which advises on areas for review if needed.

Introduction to Permanent Plug and Abandonment of Wells 2020-01-27 Mahmoud Khalifeh This open access book offers a timely guide to challenges and current practices to permanently plug and abandon hydrocarbon wells. With a focus on offshore North Sea, it analyzes the process of plug and abandonment of hydrocarbon wells through the establishment of permanent well barriers. It provides the reader with extensive knowledge on the type of barriers, their functioning and verification. It then discusses plug and abandonment methodologies, analyzing different types of permanent plugging materials. Last, it describes some tests for verifying the integrity and functionality of installed permanent barriers. The book offers a comprehensive reference guide to well plugging and abandonment (P&A) and well integrity testing. The book also presents new technologies that have been proposed to be used in plugging and abandoning of wells, which might be game-changing technologies, but they are still in laboratory or testing level. Given its scope, it addresses students and researchers in both academia and industry. It also provides information for engineers who work in petroleum industry and should be familiarized with P&A of hydrocarbon wells to reduce the time of P&A by considering it during well planning and construction.

The Aleutians Campaign, June 1942-August 1943 1945

Promoting Social and Emotional Learning 1997 Maurice J. Elias The authors draw upon scientific studies, theories, site visits, and their own extensive experiences to describe approaches to social and emotional learning for all levels.

The Circle of Kindness 2006-10-01 Jana Kolpen The team that made international best-sellers of "The Secrets of Pistoulet" and "Dancing with the Moon" returns with a powerful new tale of transformation and the healing power of love, this one set in Ireland, that most magical and warm-hearted of countries. "In the enchanted Irish countryside of ancient forests, singing bridges, and babbling brooks stands a thatch-roofed pink cottage overlooking the sea. In all of Ireland there's no place finer to have a cup of tea. On the door of that cottage is a timeless symbol that recalls travelers home no matter how far they've roamed. And in the heart of that cottage is a compassion and generosity whose warmth and wonder turn the world." Thus begins "Circle of Kindness," a finely wrought fable about Mademoiselle J. and an act of kindness that touches the lives of several people, finding expression in a gift of nurturing and food. Like its predecessors, this book is beautifully written and exquisitely illustrated and features booklet inserts, pocket cards, and envelopes with uplifting sentiments. The book's beautiful Irish message has already inspired a matching line of china from Pfaltzgraff, which will be available this fall.

Essential Criminal Law 2016-08-18 Matthew Lippman Essential Criminal Law, Second Edition equips students with a foundational and practical understanding of criminal law in the United States, as well as encourages strong legal reasoning skills for students with no prior exposure to case law. Award-winning professor and bestselling author Matthew Lippman guides students through the complexities of the legal system using thought-provoking examples of real-life crimes and legal defenses, along with highly approachable case analyses. Updated with the most current developments in criminal law and public policy, the Second Edition takes students beyond the classroom and prepares them to apply criminal law in today's legal world.

Communication, Control, and Computer Access for Disabled and Elderly Individuals 1987 Dale Bengston "Grant G008300045"--Resourcebook 3, doc. resume.

Unconventional, Contrary, and Ugly 2013-11 National Aeronautics and Space Administration When the United States began considering a piloted voyage to the moon, an enormous number of unknowns about strategies, techniques, and equipment existed. Some people began wondering how a landing maneuver might be performed on the lunar surface. From the beginning of the age of flight, landing has been among the most challenging of flight maneuvers. Touching down smoothly has been the aim of pilots throughout the first century of flight. Designers have sought the optimum aircraft configuration for landing. Engineers have sought the optimum sensors and instruments for best providing the pilot with the information needed to perform the maneuver efficiently and safely. Pilots also have sought the optimum trajectory and control techniques to complete the approach and touchdown reliably and repeatably. Landing a craft on the moon was, in a number of ways, quite different from landing on Earth. The lunar gravitational field is much weaker than Earth's. There were no runways, lights, radio beacons, or navigational aids of any kind. The moon had no atmosphere. Airplane wings or helicopter rotors would not support the craft. The type of controls used conventionally on Earth-based aircraft could not be used. The lack of an atmosphere also meant that conventional flying instrumentation reflecting airspeed and altitude, and rate of climb and descent, would be useless because it relied on static and dynamic air pressure to measure changes, something lacking on the moon's surface. Lift could be provided by a rocket engine, and small rocket engines could be arranged to control the attitude of the craft. But what trajectories should be selected? What type of steering, speed, and rate-of-descent controls should be provided? What kind of sensors could be used? What kind of instruments would provide helpful information to the pilot? Should the landing be performed horizontally on wheels or skids, or vertically? How accurately would the craft need to be positioned for landing? What visibility would the pilot need, and how could it be provided? Some flight-test engineers at NASA's Flight Research Center were convinced that the best way to gain insight regarding these unknowns would be the use of a free-flying test vehicle. Aircraft designers at the Bell Aircraft (Aerosystems) Company believed they could build a craft that would duplicate lunar flying conditions. The two groups collaborated to build the machine. It was unlike any flying machine ever built before or since. The Lunar Landing Research Vehicle (LLRV) was unconventional, sometimes contrary, and always ugly. Many who have seen video clips of the LLRV in flight believe it was designed and built to permit astronauts to practice landing the Apollo Lunar Module (LM). Actually, the LLRV project was begun before NASA had selected the strategy that would use the Lunar Module! Fortunately, when the Lunar Module was designed somewhat later, its characteristics were sufficiently similar to the LLRV that the LLRV could be used for LM simulation. A later version of the LLRV, the Lunar Landing Training Vehicle (LLTV), provided an even more accurate simulation following considerable modification to better represent the final descent stage. *Unconventional, Contrary, & Ugly: The Lunar Landing Research Vehicle* tells the complete story of this remarkable machine, the Lunar Landing Research Vehicle,

including its difficulties, its successes, and its substantial contribution to the Apollo program. The authors are engineers who were at the heart of the effort. They tell the tale that they alone know and can describe.

The Guadalcanal Campaign 1949 United States. Marine Corps

Kontum 2011-09-09 Thomas P. McKenna In the spring of 1972, North Vietnam invaded South Vietnam in what became known as the Easter Offensive. Almost all of the American forces had already withdrawn from Vietnam except for a small group of American advisers to the South Vietnamese armed forces. The 23rd ARVN Infantry Division and its American advisers were sent to defend the provincial capital of Kontum in the Central Highlands. They were surrounded and attacked by three enemy divisions with heavy artillery and tanks but, with the help of air power, managed to successfully defend Kontum and prevent South Vietnam from being cut in half and defeated. Although much has been written about the Vietnam War, little of it addresses either the Easter Offensive or the Battle of Kontum. In *Kontum: The Battle to Save South Vietnam*, Thomas P. McKenna fills this gap, offering the only in-depth account available of this violent engagement. McKenna, a U.S. infantry lieutenant colonel assigned as a military adviser to the 23rd Division, participated in the battle of Kontum and combines his personal experiences with years of interviews and research from primary sources to describe the events leading up to the invasion and the battle itself. *Kontum* sheds new light on the actions of U.S. advisers in combat during the Vietnam War. McKenna's book is not only an essential historical resource for America's most controversial war but a personal story of valor and survival.

The Battle of Midway Including the Aleutian Phase, June 3 to June 14, 1942 2021-09-09 Richard W 1892-1973 Bates This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public.
