After exploring extremely easy ways to get started with DADGAD, involving as little as a single finger on the fretting hand, the book progresses to examples that will interest even more advanced players. 200 musical examples, including several full performance-quality pieces, demonstrate each concept. The companion recording features the author playing many of the examples. A complete introduction to DADGAD tuning for fingerstyle acoustic guitar. 20 Spanish Baroque Pieces by Gaspar Sanz Arranged for Uke 2015-10-13 ROB MACKILLOP Gaspar Sanz (1640 -1710) is the most famous baroque-period guitarist. His works are tuneful and memorable, with fiery cross-rhythms and cascading scale passages. He published three books of guitar music. The baroque guitar could be viewed as a close relative of the ukulele. Indeed, the two instruments have much in common. The smaller four-course guitar actually had the same tuning as the ukulele, for example, although it was largely double-strung. Sanz enjoyed playing scales in the campanella style, with the notes of a scale set out on different strings, sonically overlapping slightly in the style of little bells. This is a technique the ukulele excels at, and is used to good effect in these arrangements. Sanz' music for baroque guitar transfers exceptionally well to the uke, as these arrangements demonstrate. It is hoped that this repertoire will bring a refreshing addition to the repertoire of the ukulele, just as the little instrument can bring a freshness to these old but lively pieces.
