An Irish Heart 2022-05-31 Sharon Doyle Driedger During the Great Famine of the 1840s, thousands of impoverished Irish immigrants, escaping from the potato crop failure, fled to Canada on what came to be known as "fever ships." As the desperate arrivals landed at Quebec City or nearby Grosse Isle, families were often torn apart. Parents died of typhus and children were put up for adoption, while lucky survivors travelled on to other destinations. Many people made their way up the St. Lawrence to Montreal, where 6,000 more died in appalling conditions. Despite these terrible beginnings, a thriving Irish settlement called Griffintown was born and endured in Montreal for over a century. The Irish became known for their skill as navvies, building our canals and bridges, working long hours in factories, raising large, close-knit families. This riveting story captures their strong faith, their dislike of authority, their love of drink, song and a good fight, and their loyalty. Filled with personal recollections drawn from extensive author interviews, *An Irish Heart* recreates a community and a culture that has a place of distinction in our history. From D'Arcy McGee and Nellie McClung to the Montreal Shamrocks, Brian Mulroney and beyond, Irish Canadians have made their mark.

What Parish Are You From? 2021-12-14 Eileen M. McMahon For Irish Americans as well as for Chicago's other ethnic groups, the local parish once formed the nucleus of daily life. Focusing on the parish of St. Sabina's in the southwest Chicago neighborhood of Auburn-Gresham, Eileen McMahon takes a penetrating look at the response of Catholic ethnics to life in twentieth-century America. She reveals the role the parish church played in achieving a cohesive and vital ethnic neighborhood and shows how ethno-religious distinctions gave way to racial differences as a central point of identity and conflict. For most of this century the parish served as an important mechanism for helping Irish Catholics cope with a dominant Protestant-American culture. Anti-Catholicism in the society at large contributed to dependency on parishes and to a desire for separateness from the American mainstream. As much as Catholics may have wanted to insulate themselves in their parish communities, however, Chicago demographics and the fluid nature of the larger society made this ultimately impossible. Despite efforts at integration attempted by St. Sabina's liberal clergy, white parishioners viewed black migration into their neighborhood as a threat to their way of life and resisted it even as they relocated to the suburbs. The transition from white to black neighborhoods and parishes is a major theme of twentieth-century urban history. The experience of St. Sabina's, which changed from a predominantly Irish parish to a vibrant African-American Catholic community, provides insights into this social trend and suggests how the interplay between faith and ethnicity contributes to a resistance to change.

A Dance in Donegal 2021-02-02 Jennifer Deibel "Deibel's descriptions of Ireland's landscape, enticing cuisine, sonorous language, and vibrant culture converge to form a spectacular background for the story."--BookPage starred review All of her life, Irish-American Moira Doherty has relished her mother's descriptions of Ireland. When her mother dies unexpectedly in the summer of 1920, Moira decides to fulfill her mother's wish that she become the teacher in Ballymann, her home village in Donegal, Ireland. After an arduous voyage, Moira arrives to a new home and a new job in an ancient country. Though a few locals offer a warm welcome, others are distanced by superstition and suspicion. Rumors about Moira's mother are unspoken in her presence but threaten to derail everything she's journeyed to Ballymann to do. Moira must rely on the kindness of a handful of friends--and the strength of Sean, an unsettlingly handsome thatcher who keeps popping up unannounced--as she seeks to navigate a life she'd never dreamed of . . . but perhaps was meant to live. Jennifer Deibel's debut novel delights the senses, bringing to life the sights, sounds, smells, and language of a lush country and a colorful people. Historical romance fans will embrace her with open arms. "God's redemptive love is the highlight of this debut work . . . Fans of historical Christian romances in the vein of Kristi Ann Hunter and Jen Turano will want to keep an eye on Deibel."--Library Journal "Deibel's exemplarily executed debut is a touching tale of love and forgiveness that also beautifully captures the warmth and magic of 1920s Ireland. The author's flair for vivid characterization is especially striking in Moira, whose realistic struggles with her faith give her memorable depth and relatability."--Booklist

Persons and Places 1986 George Santayana This edition of his autobiography restores passages that were deleted in the original book because of the publisher's sensitivities about lawsuits, printing and production convenience, a general desire by editors to "soften" some of his remarks, and his own request that portions be published only after his death.

The End of an Era 1901 John Sergeant Wise

[A Brief History of Ireland](#) 2012-01-19 Richard Killeen From the dawn of history to the decline of the Celtic Tiger - how Ireland has been shaped over the centuries. Ireland has been shaped by many things over the centuries: geography, war, the fight for liberty. A Brief History of Ireland is the perfect introduction to this exceptional place, its people and its culture. Ireland has been home to successive groups of settlers - Celts, Vikings, Normans, Anglo-Scots, Huguenots. It has imported huge ideas, none bigger than Christianity which it then re-exported to Europe after the fall of the Roman Empire. In the Tudor era it became the first colony of the developing English Empire. Its fraught and sometimes brutal relationship with England has dominated its modern history. Killeen argues that religion was decisive in all this: Ireland remained substantially Catholic, setting it at odds with the larger island culturally, religiously and politically. But its own culture and identity have stayed strong, most obviously in literature with a magnificent tradition of writing from the Book of Kells to the modern masters: Joyce, Yeats, Beckett and Heaney.

The Sea, The Sea 2001-03-01 Iris Murdoch Winner of the prestigious Booker Prize—a tale of the strange obsessions that haunt a playwright as he composes his memoirs Charles Arrowby, leading light of England's theatrical set, retires from glittering London to an isolated home by the sea. He plans to write a memoir about his great love affair with Clement Makin, his mentor, both professionally and personally, and amuse himself with Lizzie, an actress he has strung along for many years. None of his plans work out, and his memoir evolves into a riveting chronicle of the strange events and unexpected visitors—some real, some spectral—that disrupt his world and shake his oversized ego to its very core. [The Ten Greatest Revivals Ever](#) 2004-01-31 Elmer L. Towns Over the centuries God has touched the earth with revival, lifting men and women into his presence in extraordinary ways. And in some epochs the divine hand seems to have rested on us longer and to have caused more profound changes in the church and the culture. Authors Towns and Porter have studied revival eras throughout history in order to identify the ten which seem to have been the greatest of all time. If you want to understand revival and if you long to see revival in our day, this book will speak to both your mind and your heart.

[The Teapots Are Out and Other Eccentric Tales from Ireland](#) 2004-02-10 John B. Keane A fitting tribute to John B. Keane, for decades Ireland's favorite storyteller, this winning short story collection typifies the late author's folkloric imagination and storytelling arts. These are congenial tales, too, as this literary legend views the foibles and fallibilities of Irish country folk with abundant compassion as well as a shrewd, sometimes sardonic eye. Add to that Keane's glorious sense of fun and roguery that will make readers relish all the more how and why, in "Fred Rimple," Jim Conlon kills the best friend he ever had. Or how Willie Ramley determines that his future wife will be "Guaranteed Pure." Or how, to tragic as well as comic effect, a gasp, garlic, and gossip undo Denny Bruder in "The Hanging." In all, Keane uncovers the folly in the romantic pangs, exalted aspirations, misguided mischief, and everyday shortcomings of the characters in the village of his storyteller's mind—and beyond the folly finds their humanity.

Women, Race, & Class 2011-06-29 Angela Y. Davis From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like

Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

The Poisonwood Bible 2009-10-13 Barbara Kingsolver New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

The Mismeasure of Desire 1993-11-18 David E. Stannard For four hundred years—from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s—the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched—and in places continue to wage—against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

Decolonizing Pathways towards Integrative Healing in Social Work 2020-10-01 Kris Clarke Taking a new and innovative angle on social work, this book seeks to remedy the lack of holistic perspectives currently used in Western social work practice by exploring Indigenous and other culturally diverse understandings and experiences of healing. This book examines six core areas of healing through a holistic lens that is grounded in a decolonizing perspective. Situating integrative healing within social work education and theory, the book takes an interdisciplinary approach, drawing from social memory and historical trauma, contemplative traditions, storytelling, healing literatures, integrative health, and the traditional environmental knowledge of Indigenous Peoples. In exploring issues of water, creative expression, movement, contemplation, animals, and the natural world in relation to social work practice, the book will appeal to all scholars, practitioners, and community members interested in decolonization and Indigenous studies.

The Making of the English Working Class 2016-03-15 E. P. Thompson A history of the common people and the Industrial Revolution: "A true masterpiece" and one of the Modern Library's 100 Best Nonfiction Books of the twentieth century (Tribune). During the formative years of the Industrial Revolution, English workers and artisans claimed a place in society that would shape the following centuries. But the capitalist elite did not form the working class—the workers shaped their own creations, developing a shared identity in the process. Despite their lack of power and the indignity forced upon them by the upper classes, the working class emerged as England's greatest cultural and political force. Crucial to contemporary trends in all aspects of society, at the turn of the nineteenth century, these workers united into the class that we recognize all across the Western world today. E. P. Thompson's magnum opus, *The Making of the English Working Class* defined early twentieth-century English social and economic history, leading many to consider him Britain's greatest postwar historian. Its publication in 1963 was highly controversial in academia, but the work has become a seminal text on the history of the working class. It remains incredibly relevant to the social and economic issues of current times, with the Guardian saying upon the book's fiftieth anniversary that it "continues to delight and inspire new readers."

The Fairy-faith in Celtic Countries 1911 Walter Yeeling Evans-Wentz In this study, which is first of all a folk-lore study, we pursue principally an anthropo-psychological method of interpreting the Celtic belief in fairies, though we do not hesitate now and then to call in the aid of philology; and we make good use of the evidence offered by mythologies, religions, metaphysics, and physical sciences.

Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary 2015-07-22 Truth and Reconciliation Commission of Canada This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

How the Irish Saved Civilization 2010-04-28 Thomas Cahill The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of civilization. Not only did he bring Christianity to Ireland, he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining and compelling narrative, Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's *A Distant Mirror*, *How The Irish Saved Civilization* reconstructs an era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's *Heretics and Heroes*.
