Chairs 2002 Charlotte Fiell

1000 Chairs 2005 The ubiquitous chair in all its shapes and forms (TASCHEN's 25th anniversary special edition) More than any other piece of furniture, the chair has been subjected to the wildest dreams of the designers. The particular curve of a back-rest, or the twist of a leg, the angle of a seat or the colour of the entire artefact all reflect the stylistic consciousness of each era. From Gerrit Rietveld and Alvar Aalto via Verner Panton to Eva Zeisel; from Art Nouveau to International Style, from Pop Art to Postmodernism, the phenomenon of the chair is so complex that it requires a reference work as comprehensive as this to do it full justice. They are all here: Thonet's bentwood chairs and Hoffmann's sitting-machines, Marcel Breuer's Wassily chair and Ron Arad's avant garde armchairs. The book, a slightly abbreviated version of our classic title *1000 Chairs*, devotes one page to each chair, displayed on its own as pure form, with biographical and historical information about the chair.

Chairs by Architects 2016-09-13 Agata Toromanoff Revealing pairings of a chair and a building by each architect—featuring fifty-five stars from Calatrava to Hadid Does an architect's style always come across, regardless of medium? Pairing great buildings with great chairs by the same architect, *Chairs by Architects* demonstrates how the defining qualities of a building's style can also be evident in that architect's furniture designs. Pieces of furniture, like manifestos, become signatures of architectural style. The fifty-five architects featured here include early modern architectural pioneers such as Otto Wagner, Charles Rennie Mackintosh, Antoni Gaudí, and Walter Gropius, together with more recent modern masters such as Oscar Niemeyer, Santiago Calatrava, Zaha Hadid, Frank Gehry, and Daniel Libeskind. The book contains interviews on Designing (in conversation with David Adjaye), Manufacturing (with David E. Bright, Knoll, Inc.), Selling (with Zeev Aram), Collecting (with Richard Wright), and Preserving (with Susanne Graner, Vitra Design Museum). This is essential reading for everyone concerned with design, architecture, and the relationship between creators and their creations.

The Chairs Are Where the People Go 2011-07-05 Misha Glouberman Should neighborhoods change? Is wearing a suit a good way to quit smoking? Why do people think that if you do one thing, you're against something else? Is monogamy a trick? Why isn't making the city more fun for you and your friends a super-noble political goal? Why does a computer last only three years? How often should you see your parents? How should we behave at parties? Is marriage getting easier? What can spam tell us about the world? Misha Glouberman's friend and collaborator, Sheila Heti, wanted her next book to be a compilation of everything Misha knew. Together, they made a list of subjects. As Misha talked, Sheila typed. He talked about games, relationships, cities, negotiation, improvisation, Casablanca, conferences, and making friends. His subjects ranged from the sublime to the ridiculous. But sometimes what had seemed trivial began to seem important—and what had seemed important began to seem less so. *The Chairs Are Where the People Go* is refreshing, appealing, and kind of profound. It's a self-help book for people who don't feel they need help, and a how-to book that urges you to do things you don't really need to do.

One Hundred Years of Solitude 2022-10-11 Gabriel García Márquez One of the twentieth century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. Rich and brilliant, it is a chronicle of life, death, and the tragicomedy of humankind. In the beautiful, ridiculous, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Now I Sit Me Down 2016-08-23 Witold Rybczynski Have you ever wondered where rocking chairs came from, or why cheap plastic chairs are suddenly everywhere? In *Now I Sit Me Down*, the distinguished architect and writer Witold Rybczynski chronicles the history of the chair from the folding stools of pharaonic Egypt to the ubiquitous stackable monobloc chairs of today. He tells the stories of the inventor of the bentwood chair, Michael Thonet, and of the creators of the first molded-plywood chair, Charles and Ray Eames. He reveals the history of chairs to be a social history--of different ways of sitting, of changing manners and attitudes, and of varying tastes. The history of chairs is the history of who we are. We learn how the ancient Chinese switched from sitting on the floor to sitting in a chair, and how the iconic chair of Middle America--the Barcalounger--traces its roots back to the Bauhaus. Rybczynski weaves a rich tapestry that draws on art and design history, personal experience, and historical accounts. And he pairs these stories with his own delightful hand-drawn illustrations: colonial rockers and English cabrioles, languorous chaise longues, and no-nonsense ergonomic task chairs--they're all here. The famous Danish furniture designer Hans Wegner once remarked, "A chair is only finished when someone sits in it." As Rybczynski tells it, the way we choose to sit and what we choose to sit on speak volumes about our values, our tastes, and the things we hold dear.

American Chairs: Queen Anne and Chippendale 1972 John T. Kirk Chairs of the Queen Anne and Chippendale period (1730-1795), really one continuous development without a break, have been chosen since this form shows the many facets of a gradual development, is easily handled, and is available in quantity. In order not to prejudge where the chairs were made, they were first grouped solely according to similar means of construction and design. Only after groups of like objects were formed was attention paid to their histories, labels, and similar documentation, Happily, when analyzed, enough of this secondary information was found associated with each group to provide the knowledge as to where they originated. -- pg. 4.

One Thousand Ways to Make \$1000 2017-07-11 F. C. Minaker First published in 1936, *One Thousand Ways to Make \$1000* is the long out-of-print book that Warren Buffett's biographers credit with shaping the legendary investor's business acumen and giving him his trademark appreciation of compound interest. After pulling a copy of *One Thousand Ways* off a library shelf at age eleven and devouring F.C. Minaker's plucky and practical business advice, Buffett declared that he would be a millionaire by the time he was 35. Written in the immediate, conversational style of Dale Carnegie's *How to Win Friends and Influence People*, this book is full of inventive ideas on how to make money through excellent salesmanship, hard work, and resourcefulness. While some of the ideas may seem quaint today--goat dairying, manufacturing motor-driven chairs, and renting out billiard tables to local establishments are among the money-making ideas presented--the underlying fundamentals of business explained in these pages remain as solid as they were over seventy years ago. Covering a wide spectrum of topics including investing, marketing, merchandising, sales, customer relations, and raising money for charity, *One Thousand Ways to Make \$1000* is both a durable, classic business book and a fascinating

portrait of determined entrepreneurship in Depression-era America. Every effort has been made to reproduce the content exactly as it was originally presented.

The Danish Chair 2018-12-19 Presents 110 Danish chairs and charts their success at home and abroad from the mid-20th century until the present day In the mid-20th century design became a cultural phenomenon that placed Denmark on the world map. Danish Design emerged in 1949 as a real brand, when American journalists started to write about Danish furniture in relation to a furniture exhibition by Snedkerlauget in Copenhagen. 'Den runde stol' made by Hans. J. Wegner was given the name 'The Chair'. This was not only the beginning of a great export adventure but also a challenge for the Danish designers, who became world recognized for their obsession with creating the perfect chair. The chair has always been the touchstone of designers and the design historians' favourite object. It touches and reflects the body it carries with arms, legs, seat and back. Besides this point, the chair is one of our most culture-bearing design objects and it tells a story about the period and the society from which it was created. In a very unique way this book shows, not just in words but also with drawings and photos how Danish chairs are built on historical furniture types, which are then refined into the infinite. The message and the explanation for the international success of Danish furniture is this; Danish furniture design is based on foreign culture and the best creations of former times.
